

## Statement of Purpose

It is my privilege to apply at Federation University for the Master course towards Master of Professional Accounting because I am fundamentally assured that this program will help to boost my dream of acquiring career as an Accountant..My name is XXXXXX. I am a permanent resident of Lekhnath 05,Kaski, Nepal and have Nepalese citizenship. I am intending to further my education by studying in Australia.

### Academic Background:

Regarding my academic qualifications, I had completed Bachelor of Business Administration ( BBA ) from Pokhara University in 2014 with CGPA 2.56, higher secondary education from Sagarmatha H.S.School in 2009 with 60.80 % and School Level Certificate from Fistail Boarding School in 2007 with 77.75%. My desire to gain more knowledge made me to study abroad for International degree so I went for IELTS preparation classes and scored overall 6.5 on 01.Aug.2015. After Completion of my bachelor I had work at as a Junior Accountant since 15th Jan 2015 to 14th Aug 2016 at Gauri Shankar Foods Pvt.Ltd.

### Why I choose the Australia for study:

The reason to choose Australia for my further education rather than studying in my own country is because Australia has quality education system around the world and the qualification is globally recognized. Also, it is a good study destination for the international student and also a place where we can exchange the culture from different countries. More ever, it is one of the best places to study for the international student with the reasonable fees comparatively from other some countries. The Australian education system has a strong international reputation.

Australian education system is renowned in world for its education quality as well as for its technically updated with present time. Student will compete in global market with Australian education system in comparison with my country Nepal's education system which is now just in 1st phase and we have to wait so long for its development. Similarly in comparison with USA, UK and Canada, I found Australia best for me to study because we have to face competitive exams like ACT, SAT in USA. Likewise, there is no post study work (PSW) facility in UK to utilize my theoretical knowledge into practical implementation after completion of study and in case of Canada, we should join Diploma course before Bachelor program after class 12. These are some factors encouraged me to study in Australia and get a globally recognized degree.

### Why study MPA at IIBIT:

IIBIT is an innovative Australian university with a reputation for teaching quality, excellent support services, and technologically advanced facilities that result in work-ready graduates with the skills to impress.IIBIT is well-known for its innovative approach to education, offering practical, hands-on courses, supported online to provide students with accessible, world-class education.

They give students the ability to influence the world for the better. As a IIBIT student, we will benefit from:

- Being taught by dedicated professionals with many years of collective experience in the field.
- opportunities to gain practical experience from the very beginning using state-of-the-art equipment and facilities that emphasise sustainable design
- A library and world-class learning platforms that provide a broad range of literature and learning materials.

The master of professional accounting program covers the latest business and accounting issues. It's a comprehensive program that delivers accounting fundamentals, informatics, managerial finance, financial reporting, corporate reporting, issues in auditing practice, tax law and practice, the principles of economics and commercial law, and a research project.

**Why Sydney:**

On studying more about Australia, I found that Sydney is rated as one of the most livable city not only in Australia but in the whole world. With its relaxed and peaceful environment I can concentrate on my studies. To add refinement to its beauty, Sydney offers a great hospitality for international students with its recreational opportunities, higher public services of the state, easy transport, affordable housing and quality food supplies, clean living and stability. I am sure Sydney guarantees my safety and living standard during my stay in Australia as an international student

**Career Options:**

The Master of Professional Accounting opens up a wide range of career opportunities within a range of organisations across the commerce, industry, government and semi-government sectors. The MPA opens many doors for me to work in senior management roles and build myself a top notch career. I will qualify to work in roles such as Chief Financial Officer, Senior Business Strategist, a Chartered Accountant, or as a key professional in the fast growing wealth management sector while I will return in my home country Nepal.

Moreover, my purpose of entering Australia is entirely to study the intended course and I will be returning after its completion on time. I am very much aware about the rights and duties that have been granted to a foreign national on Student Visa in Australia.

My family is funding my study and living cost while I am staying in Australia through Education loan/Cash Balance from Nabil/SBI Bank.

I would be happy to provide any further information for your evaluation of my application if required.

Sincerely Your's
